

Tic * Toc

TECHNICAL RIDER

Tic * Toc is an Aerial Silk & Dance piece that talks about the power of the present moment
It's duration is 25 minutes, and it is designed to be performed outdoors
during the day with no artificial lights.
Anyway, it is possible to make the performance during the night,
and in this case we should need some lights.

So the technical needs are:

*
1. An anchor point
to hang the fabric,
ideally
6 meters height

*
2. Sound Amplification
(not so loud)

* 3. a table

* 4. a chair

* 5. a floor to be able to Dance

* A place that allows the performer make an appropriate
warm up & preparation before the presentation.

* I will be glad to answer any technical question trough the
